- LA CHITARRA VOLANTE Vol.1 <Publisher: CURCI [EC 11327]>
  La chitarra volante è un percorso didattico completo, facile e divertente creato dal M° Vito Nicola Paradiso. Due simpatici personaggi accompagnano i ragazzi nell'affascinante viaggio alla scoperta della musica con la chitarra come magico mezzo di trasporto. L'approccio allo studio è agile e pratico, l'apprendimento veloce. Così gli studenti acquisiscono presto l'indipendenza tecnica e la musicalità necessarie per sostenere e sviluppare la loro passione per lo strumento. I brani proposti sono di generi diversi e in ordine progressivo di difficoltà. I cd allegati sono tutti minus one: con la chitarra solista e le basi d'accompagnamento.
- LA CHITARRA VOLANTE Vol.2 <Publisher: CURCI [EC 11455]>
  La chitarra volante volume 2 si presenta in una nuova edizione riveduta e corretta. In essa il livello tecnico e la difficoltà progressiva dei brani sviluppano gradualmente il percorso didattico iniziato nel primo volume. Nella prima parte di questo libro sono presentati molti pezzi inediti.Piacevoli da suonare, introducono ciascuno un argomento nuovo con un approccio semplice e accessibile. La seconda parte, invece, raccoglie un'ampia antologia di brani solistici utile sia per consolidare tutti gli aspetti tecnici affrontati, sia come repertorio pronto all'uso in caso di saggi e concerti. Il metodo è corredato di due CD registrati in modalità minus one, per ascoltare e suonare con l'accompagnamento i brani proposti.

- DANZE LATINO AMERICANE (2 guit, o strumento solista e chitarra, con parti per strumenti in Do o in Sib) <Publisher: CURCI [EC 11494]>
Si tratta di 12 danze scritte nei diversi stili della musica latino americana, appositamente pensate per stimolare ed accrescere, nei giovani esecutori, la ricerca interpretativa, anche nelle risoluzioni di non semplici sequenze ritmiche, tipiche di questi generi. Ogni danza, infatti, è un omaggio allo stile dei compositori o dei generi tradizionali che hanno particolarmente connotato la storia di questa musica conosciuta e danzata in tutto il mondo: Heitor Villa-Lobos, Ariel Ramirez, Piazzolla, Gardel, Jobim, Toquiño, Cugat, Bonfà, ecc. Ognuno di essi ha ispirato, con le proprie sonorità e peculiarità ritmiche, i brani qui presentati. Scritte per due chitarre, queste danze possono essere eseguite anche con strumenti in Do o in Si bemolle e chitarra, grazie alle parti appositamente trascritte, collocate alla fine del volume. È quindi possibile sostituire la prima chitarra con il violino, il flauto, il sax, la tromba o con strumenti a percussione determinate come il vibrafono o la marimba, quest'ultima particolarmente adatta, perché tipica delle zone caraibiche. Il CD minus-one allegato, inoltre, offre non solo l'opportunità di ascoltare i brani, ma anche di escludere (girando a destra o a sinistra la manopola "balance" dello stereo) una delle due chitarre: in questo modo sarà possibile eseguire a piacimento la melodia o l'accompagnamento, assieme a una delle due chitarre registrate sul CD.

- LA CHITARRA VOLANTE ENSEMBLES 1 (3/4 guit / guit-orch) <Publisher: CURCI [EC 11693], 2009>
La Chitarra Volante Ensemble è una raccolta di brani di musica d'insieme ideati per gruppi di chitarre (dal trio all'orchestra). Il volume comprende la partitura e le parti staccate di 8 titoli originali ispirati alla World Music: Balkanica (Albania), Pinocchiata (Italia), Minimalismi Indù (India), Montmartre (Francia), Celtic Air Dance (Scozia), Crepuscolo Andaluso (Spagna), New Orleans Swing (Stati Uniti), Mambotambo (Cuba). Pensati per ragazzi che frequentano il secondo anno di studi, sono ideali per i principianti di ogni età. Scritti a 3 e 4 parti, i brani possono essere eseguiti anche con l'aggiunta del basso ed eventualmente di piccole percussioni. Per allargare l'estensione sonora senza creare grandi problemi di lettura ed evitare così eccessivi tagli addizionali, nelle parti staccate di alcuni brani è stata effettuata la trasposizione di tonalità con l'utilizzo del capotasto. Numerosi sono anche gli effetti percussivi su varie zone della chitarra e sulle corde. La Chitarra Volante Ensemble prosegue il percorso didattico del metodo La Chitarra Volante di Vito Nicola Paradiso, ed è il nuovo indispensabile supporto per chiunque voglia cimentarsi e divertirsi con la musica d'insieme.

- DOUZE ÉTUDES (Nouvelle edition critique de Frédéric Zigante) <Publisher: MAX ESCHIG [DF 15851], 2011>
  Published for the first time by Éditions Max Eschig in 1953, with a preface by Andrés Segovia to whom the work was dedicated, the composing of the Douze Études by Heitor Villa-Lobos had actually commenced in Paris many years previously, probably in 1924, and finished in October 1928. This critical edition by Frederic Zigante has grown out of a painstaking study of all of the manuscript sources, enabling a new and precise reconstruction of the events surrounding the genesis of this collection. Finally, the volume presents certain variants that can be found in the Appendix (including the 1928 edition of Etude no.10) and a detailed critical commentary.
